BIG DATA : COMMENT GÉRER SES PROJETS D'INNOVATION

Michel Sérié

Laurent Dupraz

Lausanne, January 17th 2017

Agenda

1. Our experience

2. What do we consider innovation?

3. Innovation Process & Services

4. Big Data Idea Management Approach

5. Big Data Pragmatic Approach

6. How to inspire people?

Laurent Dupraz experience

2000
Network Engineer

2007
Network Engineer
& Project Manager
• **Project 1M**

2005
Network Engineer
& Project Manager
• **Project 1M**

2008
Director
Infra
• **Project 25M**
• 50 ex team
• 5 int team

2012
Director
IS R&D
• **Project 2M**
• 5 ex team
• 8 int team

2015
Director
Innovation
• **Project 30K**
• 5 ex team
• 4 int team
• 100 teams indirect

Michel Sérié experience

1992
Project
Globe

2016
Startup &
Innovation
Consulting

1989
Financial
Consultant

1994
CHR Mgr
• **Project 15M**
• 14 Team

1999
MD e-SAP
• **Project 50M**
• 230 Team

2002
VP Techno
• **Project 90M**
• 700 direct
• 1500 Practice

2009
VP Innovation
• **Project 5Mio**
• 20 direct
• 23000 Practice

What do we consider innovation?

1. Criteria

- ★ Bring Business Value
- ★ Create competitive advantage (Different or better than competition)
- ★ Adopted Idea

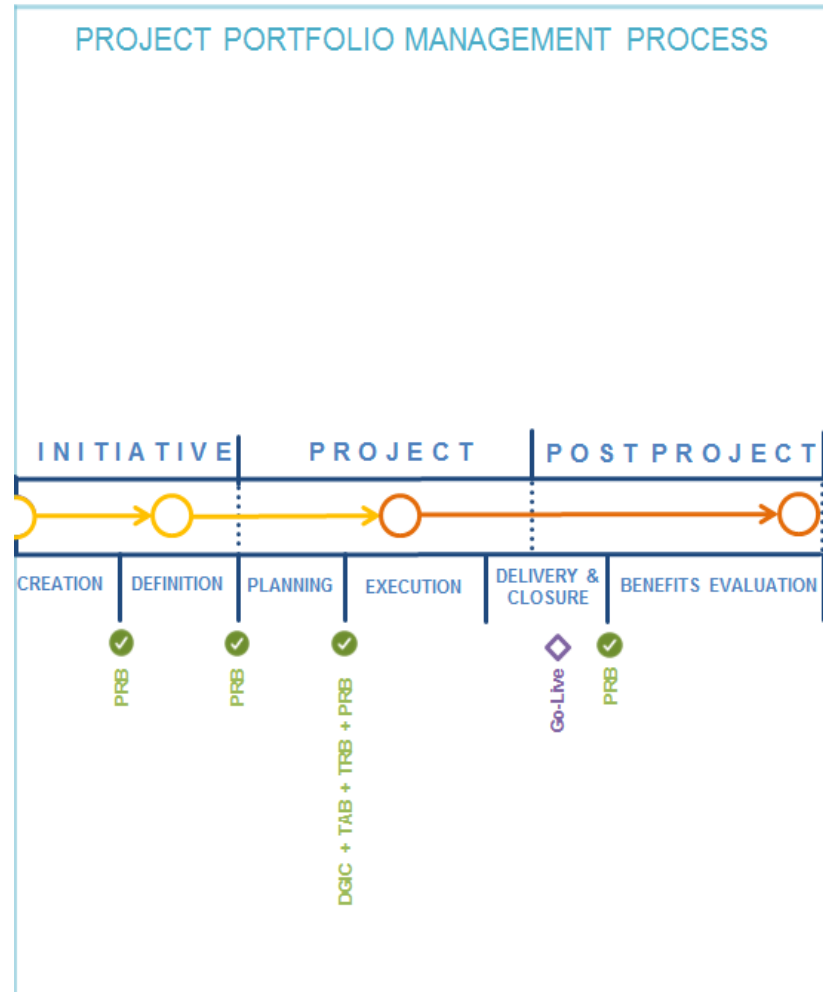

2. Positioning

- ⚙️ Process Innovation
- ⚙️ Business Model
- ⚙️ Product Innovation
- ⚙️ Service Innovation

Innovation Management Process

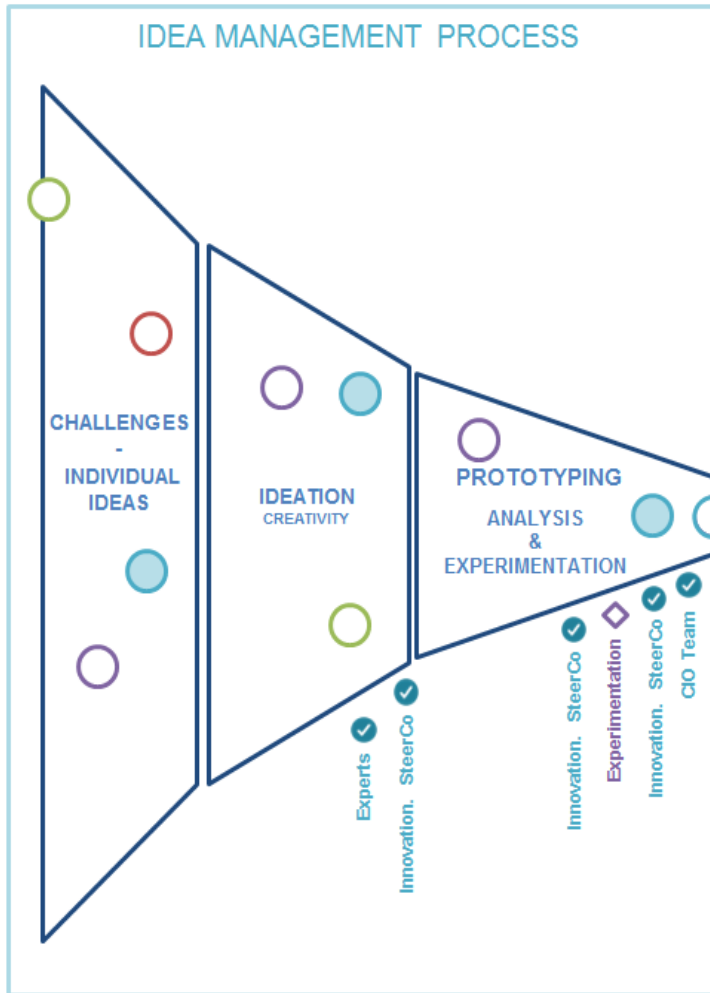

- Low Risk
- On time
- \$\$\$
- On Scope

1 Required Approvals Milestones

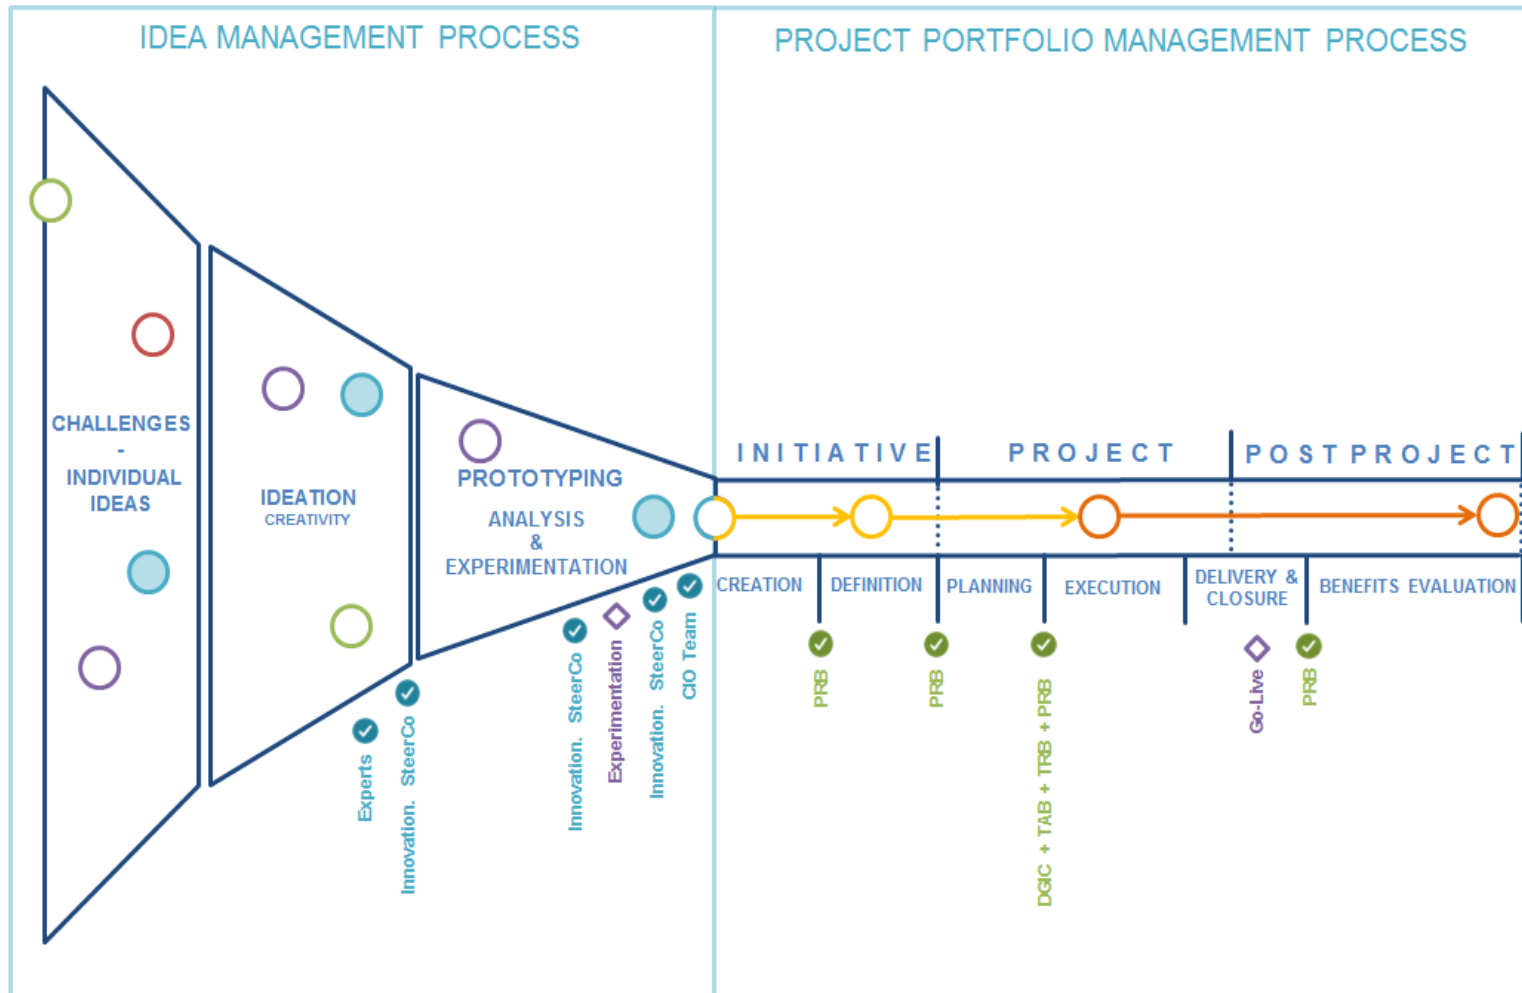

Innovation Management Process

●●●● Ideas ● Initiative ● Project ● Ideas selection

- High Risk
- Fast
- \$
- Uncertainty

Innovation Management Process

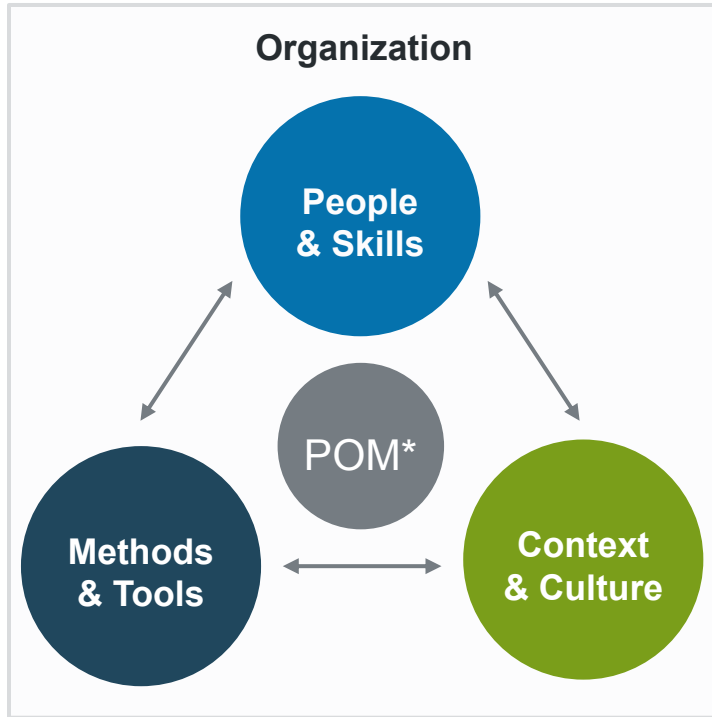

-  Ideas
-  Initiative
-  Project
-  Ideas selection
-  Required Approvals
-  Milestones

Innovation Process (M. Cigaina)

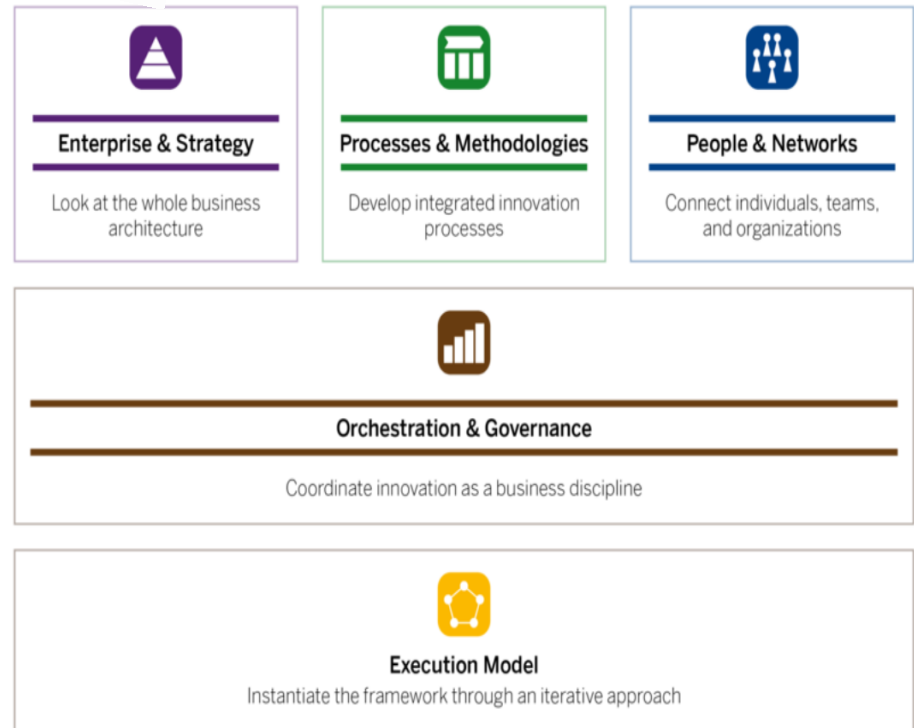

*Powered by
Design Thinking*

*POM: Process of Management
**IMF: Innovation Management Framework

Innovation Taxonomy

Consider all the different types of innovation

Building block for innovation

Innovation Management Framework

Underlying knowledge needed to consult customers on how to sustain innovation

Design Thinking

Deep dive in order to bring best coaches in a position to run E2E design thinking projects

Business Model Generation

Holistic innovation requires to look at all dimensions of business

Idea Management

All activities revolving around the idea management process

Lean Startup

All activities to speed up prototype

Sustainable Business Innovation For The Customer

Design Thinking

IDEO

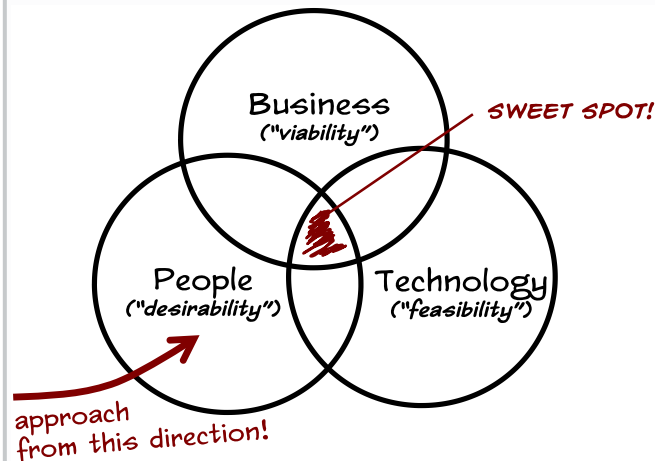

What is it?

Human centric approach for solving problems and generating new ideas on Low-Fi prototype

To Define
New Strategies

To Design
New Products
New Solutions
New Processes
New Org. Culture
New Org. Policies

How does it work?

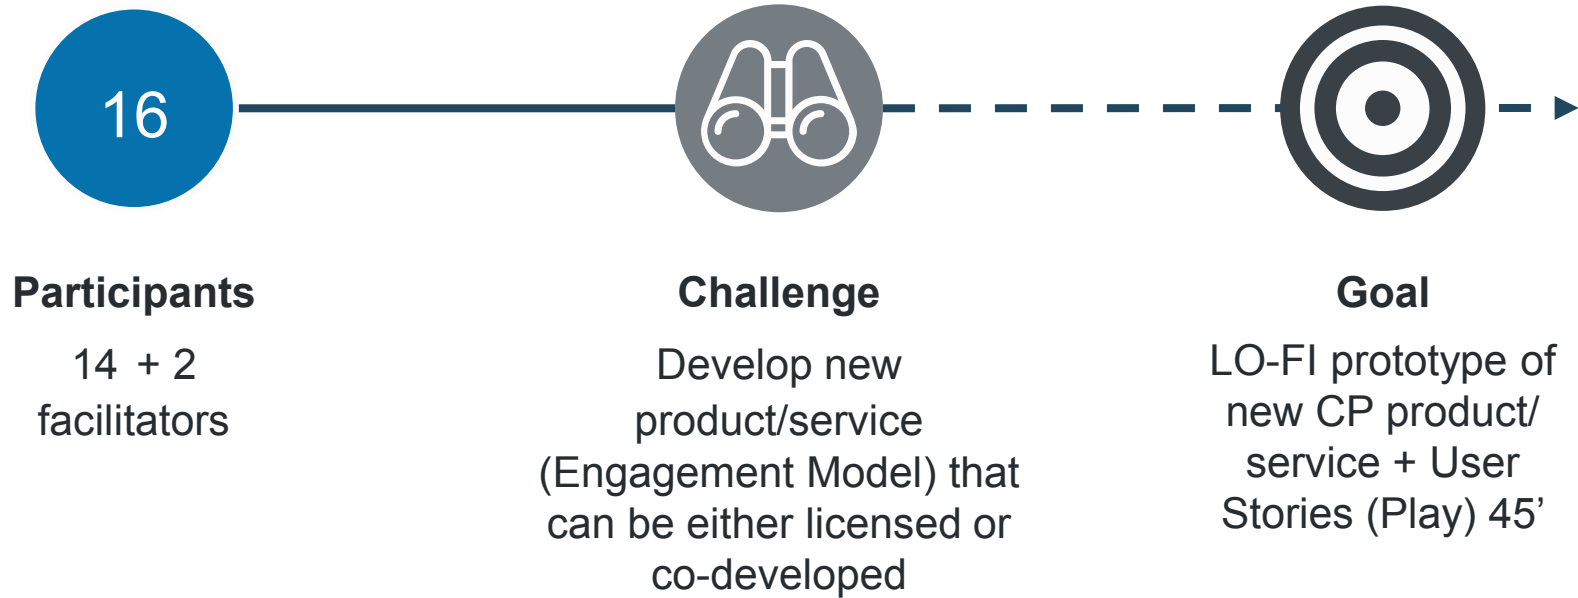

How can it be used?

Do I need to innovate on how my company/division/business is solving business problems?

Partnership Opportunity: Use Design Thinking & Business Model Generation methodology

Design Thinking Workshop example

Workshop: Approach

1. Objective

+X M in 2020

2. Challenge

Develop a new product/service that can be either licensed or co-developed

3. Internal Study

4. Social Analytics

Prototype

A story

A drawing

A prototype

Product	Price	Quality	Availability	Customer Service	Brand Reputation

Workshop: Ideation

Team 1

Team 2

Team 3

Workshop: Personas

Name: Drew ~~ADAM~~ Lopez Green

Age: young adults (25+) - adults

Sex: genders

Education: aware

Attitude: LOHAS - Whole Food Shopper

Current + future needs:
Healthy living Life with less "chemicals"

Processes:
Saves time, health, and
to the natural process

Social interactions:
Family, friends, social media, friends

Team 1

Rocio

age: 18-25-35 ♀ Latina

educ: HS, Community College

Attitude: Ambition to fulfill "traditional" Latin American expectations in a modern US context

Needs: Time, Affordability, Energy, fun, desirable, humor, cultural

Working, friends, family
→ busy, don't have time
Social media
Is already a Facebook aficionado

Team 2

AGE - 28

FEMALE - YELENA

EDUCATION - HS + some College

MARRIED + 2 KIDS

WORKS IN RETAIL

ATTITUDE: TAKE CARE OF my FAMILY BUT ENJOY MY LIFE AS WELL.

Priority: EFFICIENCY, QUALITY, COST

SOCIAL: FAMILY + FRIENDS most important

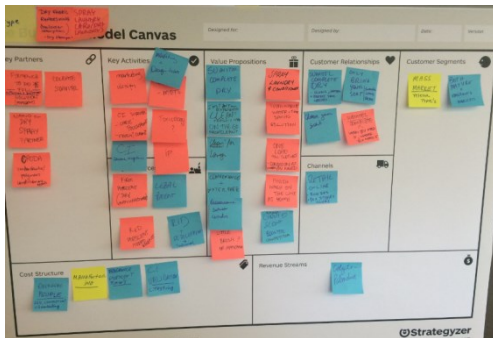

Team 3

Workshop: BMG

Team 1

Team 2

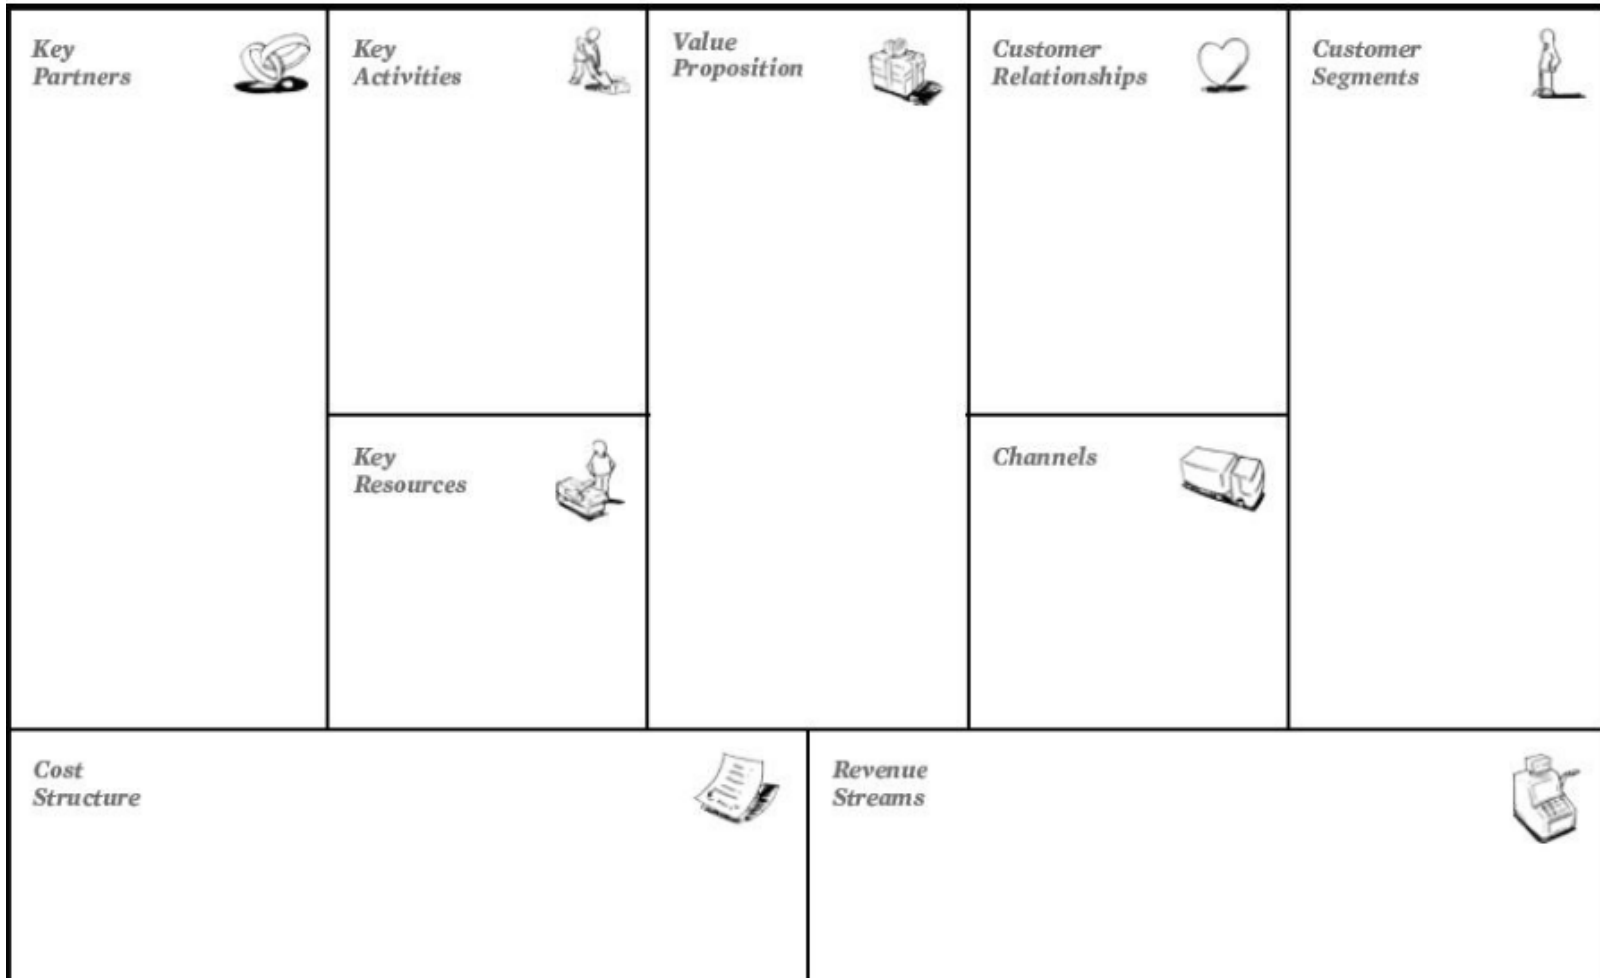

Team 3

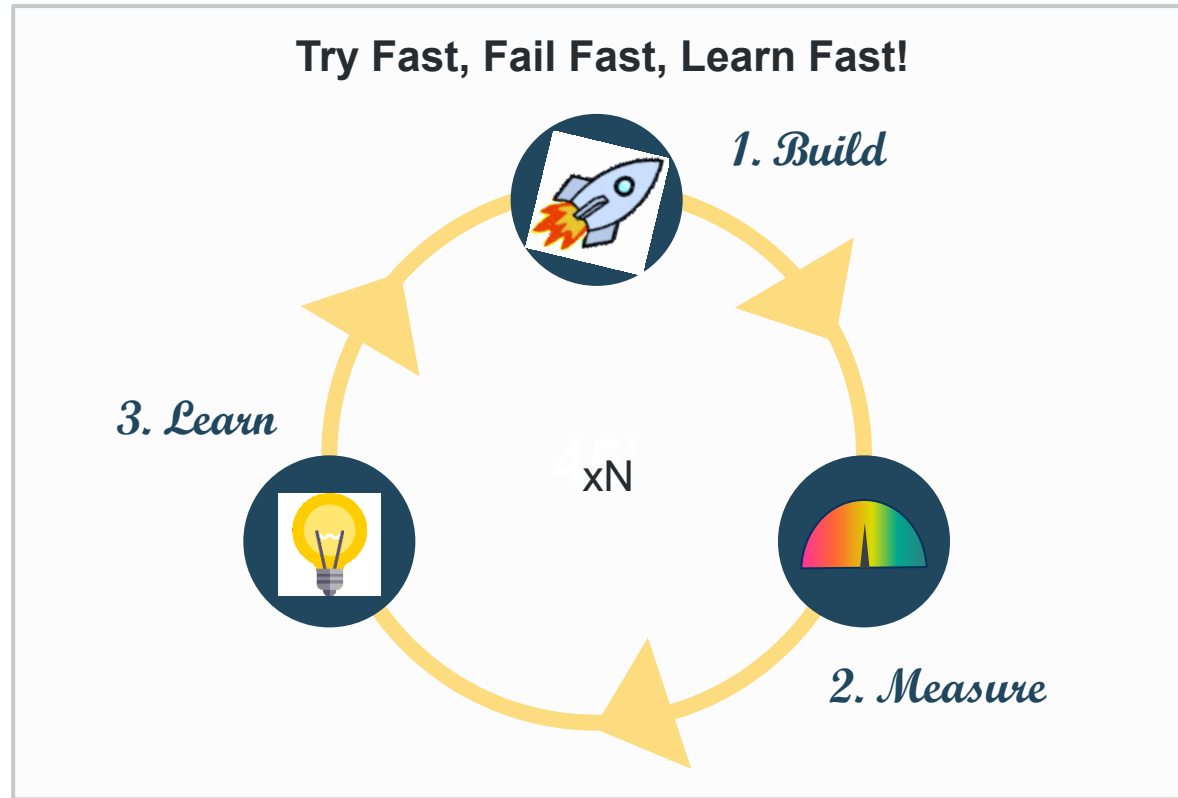

Business Model Generation

(Y. Pigneur, A. Osterwalder)

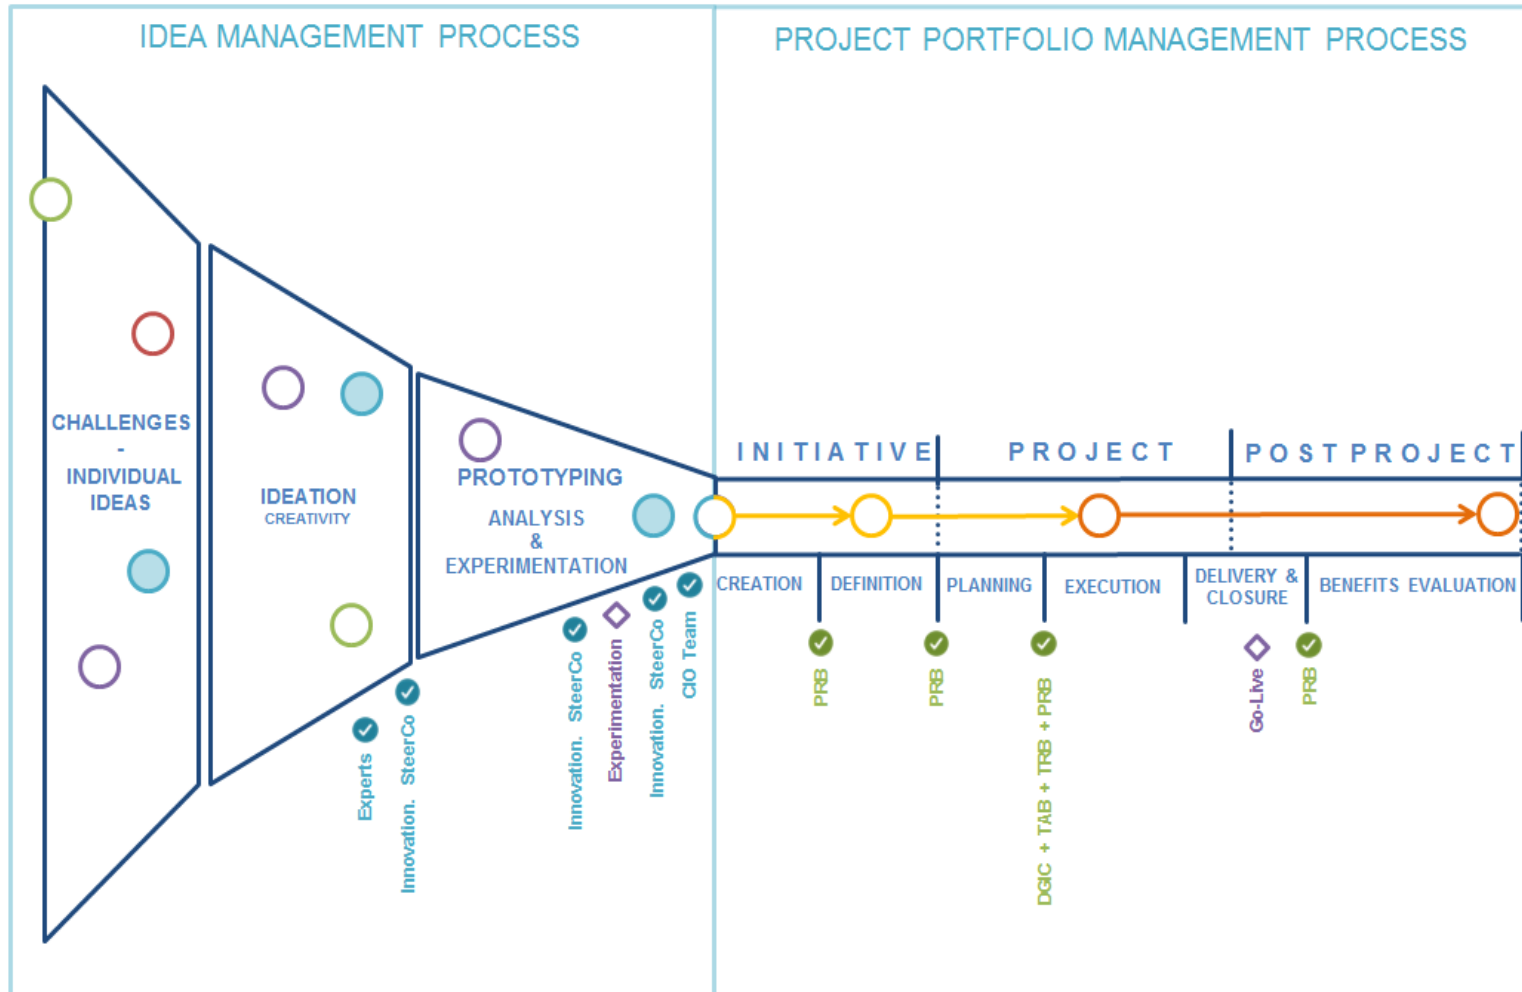

Rapid & Lean Approach (E. Ries)

=

Rapid prototyping

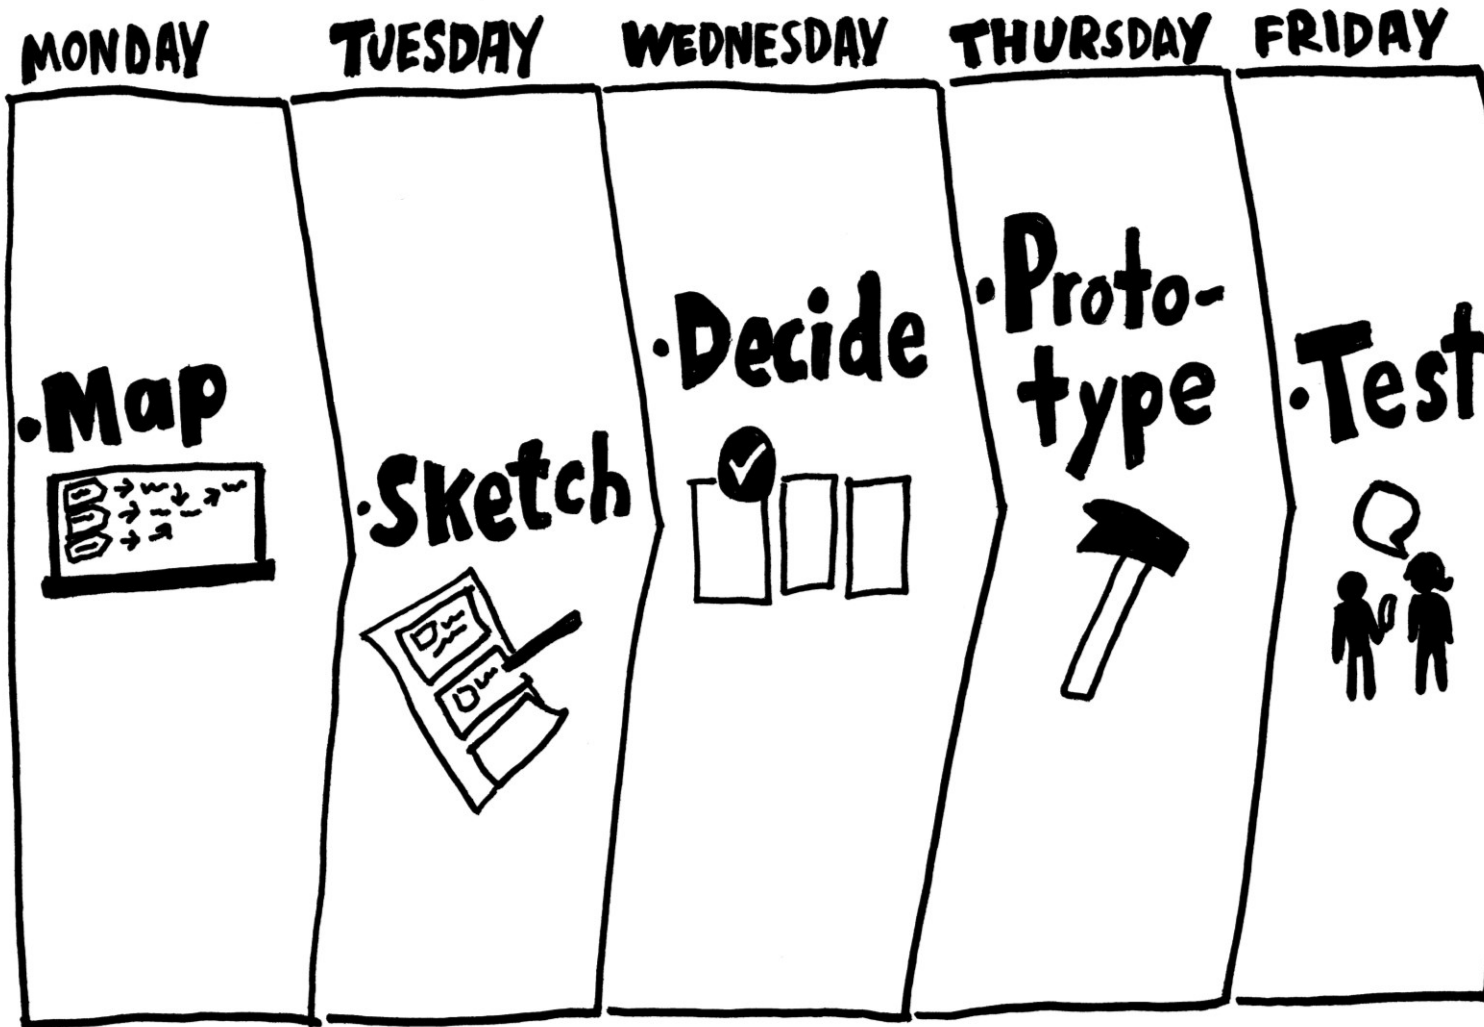

Idea Management campaign

-  Ideas
-  Initiative
-  Project
-  Ideas selection
-  Required Approvals
-  Milestones

Google Approach (J.Knapp)

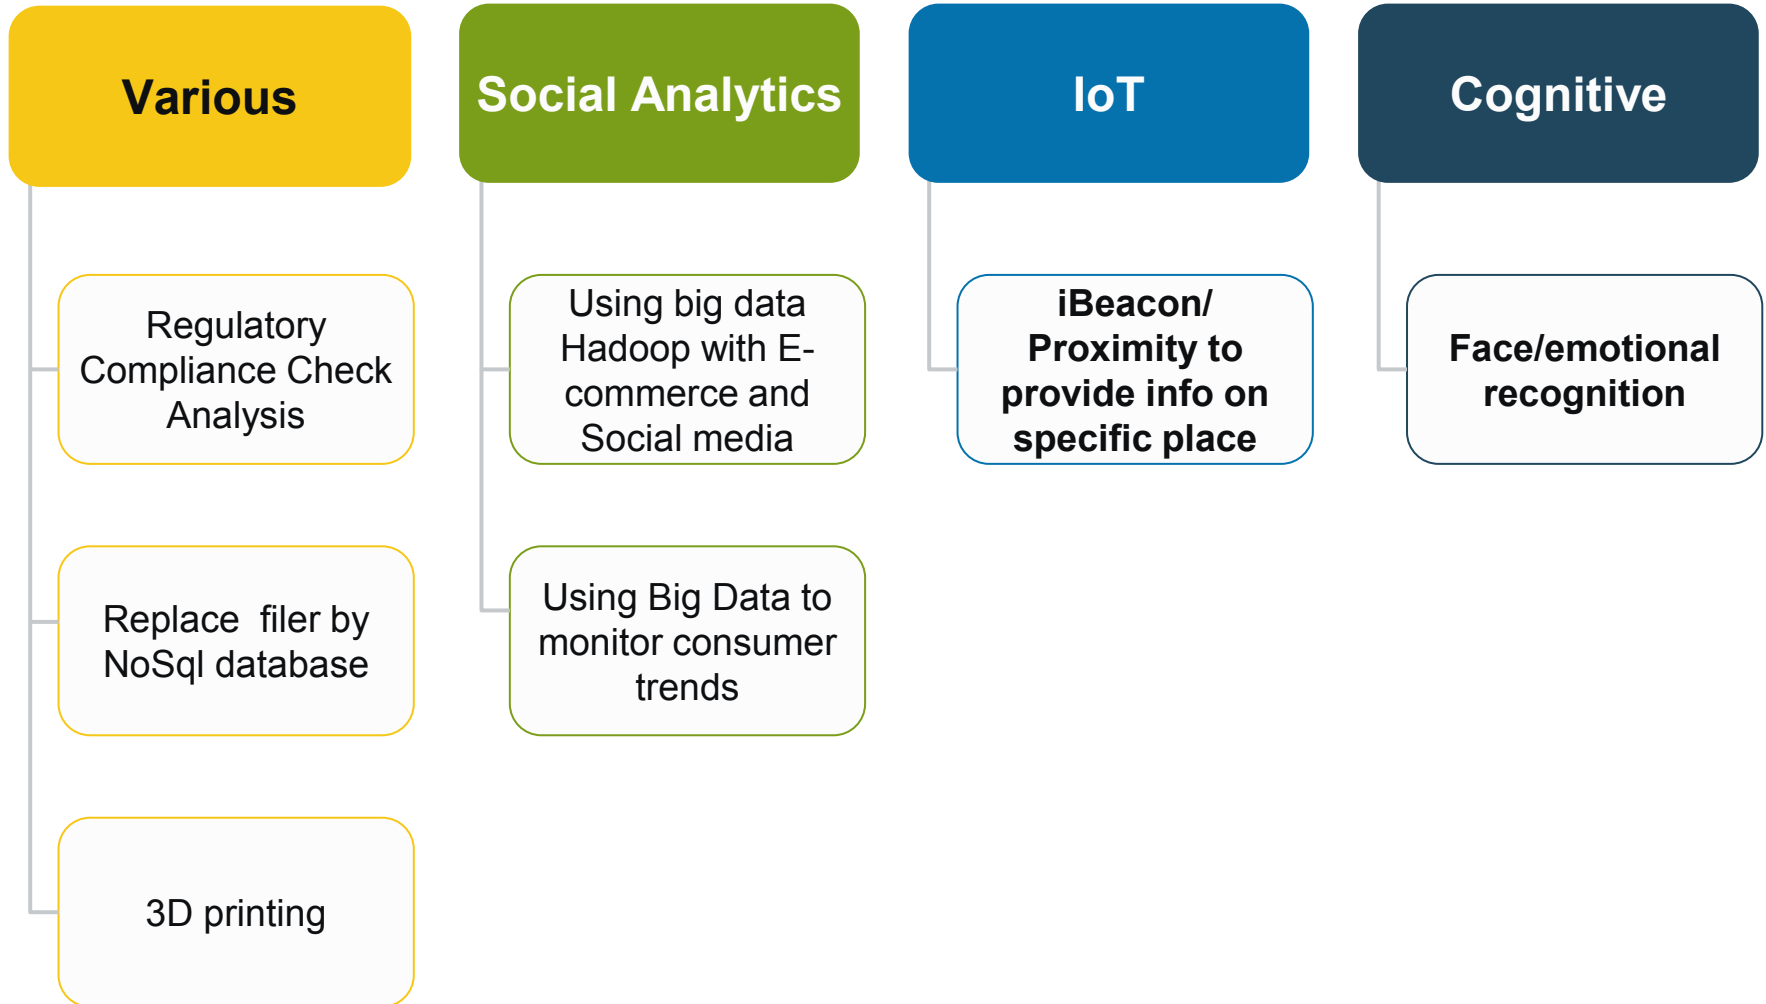

Big Data Idea Management Campaign

IS Ideation Campaign

- How can we take advantage of Big Data?
- Submit your personal idea (the ideas may range from how to improve our processes, how to save costs, how to get closer to our customers or how to help our business partners, etc.)
- Worldwide
- 300 IS participants

Potential Project

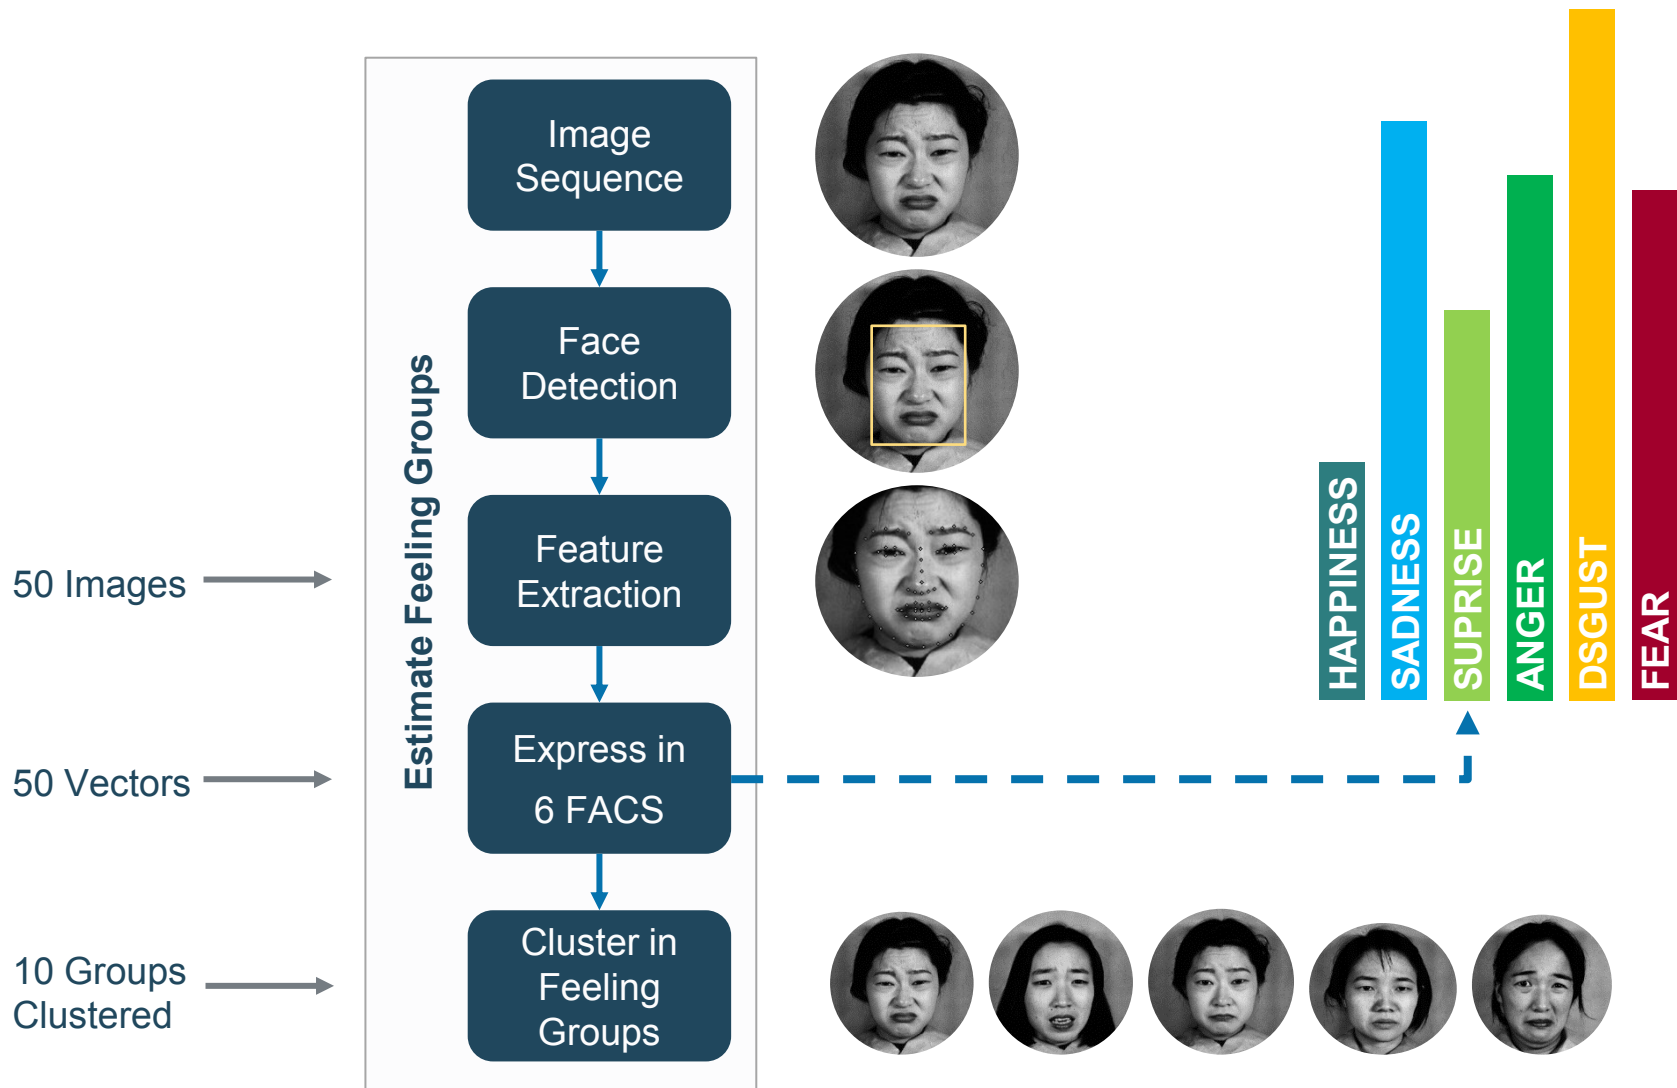

iBeacon / Proximity to provide information on specific place

Co-Innovation v

1. Security purp
2. Efficiency

Design and Detection Overview

Big Data Pragmatic approach

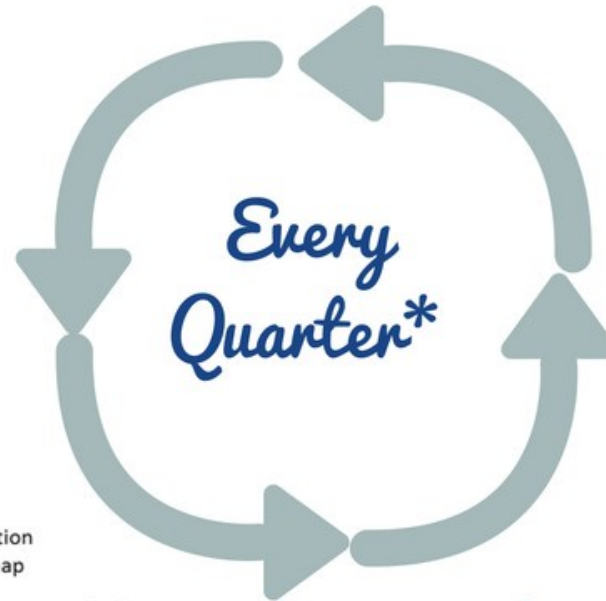

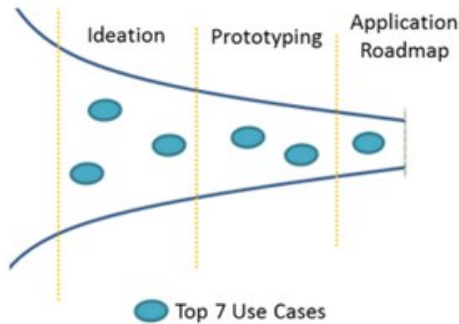

a Inspirational speech

D Prototype presentation

B Use cases

*Project update every 6 weeks

c Selection by executive participants

How to inspire people?

Dedicated space where users can feel out of the office and let their imagination fly

Virtual Reality

From Augmented Reality to Holographic Exp. (Hololens)

From Motion Capture to Eye Tracking Web Analytics

3D Printing + 3D Scanning

Innovation room example for a customer

+

Innovation is a mindset

Be positive!

Be curious!

**Participate in this
fantastic journey!**

My 3 messages

1. Innovation process has to be integrated into Project Management.

2. **Project Management** vs. **Innovation**

Low Risk

On time

\$\$\$

On Scope

High Risk

Fast

\$

Uncertainty

3. It is a global cultural change, from bottom-up to top-down

Thanks very much!
